OBJECTIVE

I am a dedicated and enthusiastic programmer and web developer. I am eager to work with an organization where the environment provides a continual learning process and where I can prove my hard work, delivering the best results for both the organization and myself.

SKILLS

- **Programming languages:** Java, C, CPP, Python
- **Web Development:** HTML, CSS, JavaScript, React JS, MySQL,
- **Version Control System:** Git & GitHub
- **Soft Skill:** Interpersonal Skills, Teamwork, Adaptability, Empathetic
- **Communication Languages:** Proficiency in English, Hindi.

PROJECTS

“I’ve hosted my projects on free hosting platform Netlify and also uploaded all projects on my GitHub profile.”

Atmosfy <https://atmosfy.netlify.app/>

By using HTML, CSS and JS I have created this website and integrated a weather forecasting API with it which shows latest weather in the real time. It has Responsive Design and User-Friendly Interface which provides seamless reading on any device.

Portfolio <https://code-with-manish.netlify.app/>

By using HTML, CSS and FontAwsome I have created my beautiful Portfolio which shows my skill-set, projects, resume as well as my contact details. It has Responsive Design and User-Friendly Interface which provides seamless reading on any device.

Landing Page <https://mobile-app-heaven.netlify.app/>

By using HTML, CSS and FontAwsome I have created a beautiful mobile application Landing Page. It has Responsive Design and User-Friendly Interface which provides seamless reading on any device.
